with those of other applicants for the Educational scholarship, but since he will finish his work by June 1915 (vide his letter) it is doubtful if the new schp could be granted to him appropriately.

7 It may be worthwhile giving him the loan of 150£ simply on his personal security to repay - on his return he may insure his life & give the policy as security

His Excellency, the Dewan

Through
The Inspector General of Education
Mysore Government

May it please Your Excellency

I beg to state that I have received two Communications from Government through the Inspector General of Education One of them is a Government order No 9078-9/Edn 223 13 5 dated 3rd April 1914 sanctioning a loan of £150 on the security of my Life Insurance Policy and Rs 500 for my return passage The other is a copy of the Comptrollers letter to the Secretary to Government in the General and Revenue Departments, No 7223 dated 11 13th May 1914, containing the following statement -

The loan of £150 sanctioned to him (re & me) will not, however be paid as he has not insured his life under Government

I beg to state that I am at a loss to know whether I should take this statement to mean that Government have ruled the Cancellation of the loan or not But believing that they have not I beg to place this petition before Your Excellency for Your Sympathetic Consideration

The Government order of the 3rd April 1914 received by me at the End of May 1914 was a gracious reply to my application sent at the End of November 1913 praying for a Scholarship or loan of £300, to enable me to study for the Ph D degree in the University of Chicago During the 6 months that elapsed between my application and Government reply I had to decide upon my courses for the Ph D degree in accordance with the rules of the University and I did so When the reply arrived in May 1914 sanctioning only a loan of £150 on the security of my Life Insurance Policy the two facts namely ① that the sum was only £150, and ② that it was sanctioned on the security of my Life Insurance Policy which I did not possess forced me to change the University of Chicago to that of Jena in Germany, so that in case

G1 B—50 000—1 12-12

Government heard my petition to change the condition of the security while in the meantime I sent to Government the sum of £150 might suffice me in Jena which is a considerably cheap place to live in Accordingly by the recommendations of Chicago I succeeded in getting my Ph D work transferred to Jena and planned to travel in Canada the last two weeks of July to study the system of Agricultural Education there and sail to Germany the first week of August To the end I bought my railway tickets and passage Just the day before I left Chicago I received the above referred letter of the Comptroller from the Inspector General of Education for my information Taking my Canadian trip I came to New York with the hope of going to England to await the reply of the Inspector General to whom I sent a petition from Canada, But my hope was frustrated by the fact that the Steam Ship Adriatic in which I should have sailed on the 6th of August cancelled her voyage on account of the European War Under these helpless conditions I could not do better than join Columbia University to complete my work for the Ph D degree in the Teachers College in advanced Science and Philosophy of Education I am expecting to finish my work here by June 1915 and return to India either by Europe or Japan

I humbly beg to bring to Your Excellency's kind Consideration the simple fact that I depended entirely upon the £150 originally for planning to work for my Ph D, and when the fear was expressed that I may not get it it was impossible for me to return

Further I beg to submit that £150 was insufficient to put me through in Chicago under normal Circumstances, and much more so in New York before the war and so very much more so now After my return passage will cost me much more on account of war than it would Otherwise

I beg to submit that with one hope of learning something in my travels and studies in Europe & America which would be of service to my Native Country, I have spent more than Rs 6000 in these 2 years This fact encourages me to believe that my enlightened and Generous Govern't would, if approached help one who has helped himself and especially when unavoidable circumstances have oppressed him

Finally I pray that the loan of £150 be kindly sanctioned to me either as a Scholarship a gift or a loan on any other condition which I may submit to, that any other relief in view I may maybe given and that the allowance of Rs 46 per month which Govern ment

Honored Sir

At the request of Ir S Paul Chinnappa, one of your subjects who is now a student with us, I write you concerning his case

It gives re great pleasure to state that Ir Chinnappa has rade a very excellent irpression with the members of our teaching staff e have in our student body each year a considerable number of advarced students from foreign countries, usually ore hundred in nurber These represent almost every country on the globe We have had a number from India Or the basis of this experience, we are justified in stating that Ir Chinnappa is exceedingly well qualified to take up this work He has a good academic foundation practical experience, a broad philosophical grasp of the problers, excellent command of English He has dore more than a year's graduate work in one of our universities, the University of Chicago, has had the degree of Laster of Arts conferred upon him for this work Or the basis of this work and his previous work in Irdia, we feel justified in giving him encouragement that he may obtain the degree of Doctor of Philosophy upon the completion of one

6

year's work with us, or at least one academic year and one Summer Session in addition, substantially one calendar year The things which stand in his way for obtaining this degree are the writings of a thesis and a fair knowledge of the French and German languages (He has already passed the French examination) He is at work upon a thesis relating to the problems of education in India and we are encouraged to believe that he will treat this in a satisfactory manner His ability to meet the language requirements will depend on his own efforts, but he has shown sufficient evidence of ability to our instructing staff to receive encouragement in working towards his degree

It seems that his plans, involving as they did the spending of most of this time in university work in Europe, have been rendered inadvisable if not impossible by the unfortunate conditions in Europe at the present time Consequently on his way to the University of Jena he stopped off with us and finding what he wants and needs decided to complete his academic training here

In behalf of the institution, I commend him earnestly to your favorable consideration We believe that the work he is doing will be of importance not only to himself but of benefit to his country

Sincerely yours

Paul Monroe

Order No 3039-40

In G O no 9078-9 // EDN 225-13-5 dd 3rd April 1914 a loan of £150 was sanctioned under rules to Mr Chennappa on the security of his Life Insurance Policy, and the loan was not paid to him as his life was not insured under the Mysore Govt Life Insurance Scheme

As Mr Chennappa's course of study will be over by June 1915 the Govt consider that a scholr. under the recent scheme cannot appropriately be granted to him, but they are pleased to direct that the loan of £150, sanctioned in the G O ref^d to above
